

DRAFTSIGHT 2025 SP3

List of Fixed IRs

IR #	Brief Description of issue(s) fixed
IR-1372737	Blocks In DraftSight Mechanical 2025 SP1, the program crashes unexpectedly after users insert title blocks, which is not observed in 2023 and 2024.
IR-1368713	Performance Repetitive copying and pasting of complex entities, such as patterns exceeding 10-15 times, causes DraftSight to lag.
IR-1379160	Drafting Unstable, DraftSight crashes when users attempt to place linear dimensions within the 'Edit Block Environment' with all E-snap settings enabled.
IR-1376834	Annotation Fonts may not display correctly when working with drawings created in other CAD programs.
IR-1381824	Printing LineStyle that display correctly on the screen are not shown properly in either the Print Preview or the final printed output.
IR-1384929	Drafting The performance of DraftSight slows down significantly after a user performs copy and paste operations on multiple entities with constraints.
IR-1383164	File Opening DWG drawings from another CAD programs results in unintended and automatic movement of entities, disrupting design integrity.

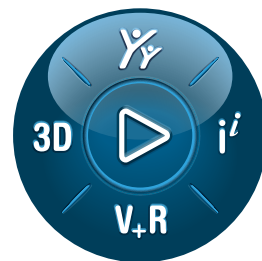

IR #	Brief Description of issue(s) fixed
IR-1378212	Drafting An error occurs when creating views (Plan, Section, Elevation) from an imported RVT file if a custom template is used.
IR-1376372	Blocks In specific files, the "Find and Replace" command fails to find and update text within block attribute properties.
IR-1319554	LISP/Customization A false "file access error" appears when running a LISP routine, even when the file path is correct and accessible.
IR-1386796	File Some drawing files cannot be opened in DraftSight 2025 SP1; the process fails without success.
IR-1363117	Display PNG and JPG images appear inconsistently sized between DraftSight 2024 and 2025, with images rendering larger in DraftSight 2024.
IR-1364369	System Failing to update as expected, the DraftSight 'File Thumbnail Size' system option prevents customizing thumbnail sizes.
IR-1369455	Editing Scale with Reference function fails when using 'Points' option (unable to select two points required to define the new length).
IR-1379465	System DraftSight 2025 SP01 stalls opening files, sticking around 20% on the progress bar when using customer profile settings.
IR-1353882	Blocks Manual interaction is required to set block orientation when inserting blocks from Windows Explorer; DraftSight forces users to input or click an angle value.
IR-1367290	Display Obscured drawing references in DraftSight 2025's image layering hinder precise image manipulation; not seen in 2024 SP4
IR-1292613	Documentation The Full Screen/HideFullScreen command is not translated consistently in the help documentation of DraftSight 2024 SP3.
IR-1352515	Annotation Changing a MultiLeader block's property value in DraftSight unexpectedly shrinks its associated circle, degrading visual accuracy and consistency.
IR-1382671	User Interface In DraftSight 2025 SP1, under Options dialog box (Options > Drafting Styles > Expand 'Text' option.), the text in 'Preview' section "AaBbCc" cannot be modified.
IR-1385555	Table/Annotation In DraftSight SP1, a glitch is introduced that unexpectedly increases the 'Table' height, disrupting drawing layouts and requiring manual correction.

IR #	Brief Description of issue(s) fixed
IR-1343672	Blocks The 'Quick Ungroup' command fails when entities belong to multiple groups, forcing users to employ less efficient methods and hindering productive workflow.
IR-1387896	User Interface xDraftsight is unable to display/select (drop-down) available collaborative spaces when importing or creating content.

Dassault Systèmes is a catalyst for human progress. Since 1981, the company has pioneered virtual worlds to improve real life for consumers, patients and citizens.

With Dassault Systèmes' **3DEXPERIENCE** platform, 370 000 customers of all sizes, in all industries, can collaborate, imagine and create sustainable innovations that drive meaningful impact.
