

DRAFTSIGHT 2026 SP0

List of Fixed IRs

IR #	Brief Description of issue(s) fixed
Annotation Issues	
IR-1423124	Annotation Angular dimension text displays incorrectly when opening drawings from other 2D CAD programs.
IR-1362172	Annotation Angular dimension text incorrectly misaligns upon opening specific large file from other 2D CAD programs, requiring property modification to restore alignment.
IR-1396746	Annotation Symbols containing checkboxes are incorrectly displayed in DraftSight, failing to represent their intended visual appearance accurately.
IR-1411997	Annotation The SPELLCHECK command does not recognize custom words that have been added to the dictionary.
IR-1421390	Annotation Multileader block attribute values change incorrectly when edited.
IR-1408298	Annotation Multileader text resizes unexpectedly when editing or modifying the original text content.
Drafting Issues	
IR-1422215	Drafting Cursor freezes when selecting a custom hatch pattern when a large library of custom .pat files is installed.

IR #	Brief Description of issue(s) fixed
IR-1430796	Drafting Unable to create offsets of elements on co-planar planes when the view is set to 'Front' (or any non-'Top' orientation), disrupting accurate 2D geometry creation.
IR-1396699	Drafting Unable to select individual faces when using the UCS command's 'face' option in DraftSight Enterprise.
IR-1425702	Drafting Issues with entities display incorrectly during copy and move operations.
IR-1424442	Drafting Inaccurate, the Object Snap feature fails to project 3D points onto the User Coordinate System's Z=0 plane, preventing accurate 2D drawings.
Performance Issues	
IR-1357436	Performance DraftSight experiences lag and crashes during selection, panning, copying, and pasting when working with large files from other 2D CAD programs.
IR-1417724	Performance DraftSight lags when opening and working with AutoCAD files.
IR-1440333	Performance DraftSight becomes unresponsive when copying and pasting in AutoCAD files.
IR-1420646	Performance Copy and paste operations take an excessive amount of time to complete.
Blocks	
IR-1408398	Blocks DraftSight crashes when cycling through base points and then saving a block.
IR-1418936	Blocks Unable to save blocks after toggling 'Show Properties' in the Block Editor.
IR-1428968	Blocks Block attributes with field formulas do not update correctly when the linked dimensional value changes in drawings.
IR-1420256	Blocks Unable to toggle between multiple base points when inserting blocks from the Tool Palette.
Display	
IR-1427879	Display Files generated by third-party Teiga software do not display correctly in DraftSight.
IR-1408821	Display Entities unexpectedly appear or disappear at different zoom levels on certain systems.

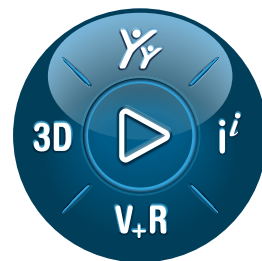

IR #	Brief Description of issue(s) fixed
IR-1425676	Display Entity colors change unexpectedly at different zoom levels.
File Operations	
IR-1349769	File DraftSight experiences performance challenges (lagging, hanging, font issues, and file inflation) when processing DWG files originating from other 2D CAD programs.
IR-1408864	File DraftSight crashes when importing a file-specific STEP file.
IR-1356455	File In DraftSight connected to the 3DEXPERIENCE platform, previous revisions are not replaced correctly when creating new revisions.
BIM Issues	
IR-1380155	BIM Unable to import .rfa files successfully in DraftSight BIM module; displays 'Unsupported format' error.
IR-1432244	BIM Unselected columns appear in Data Extraction in the BIM module.
IR-1431783	BIM Unresponsive 'Show Count Column' option in the Data Extraction wizard is ignored, causing the 'Count' column to be incorrectly displayed in the preview and final table.
Printing Issues	
IR-1360040	Printing Overridden saved print orientation settings incorrectly revert to the system's default.
IR-1414721	Printing Inaccurate PDF export causes straight vertical lines to render as inclined.
IR-1435356	Printing Pasted images (OLE entities) print in incorrect positions on physical printers, though PDF output is correct.
System & User Interface	
IR-1430345	System DraftSight becomes unresponsive during Save As operations.
IR-1430332	System DraftSight becomes unresponsive when closing the application and saving changes simultaneously.
IR-1387896	User Interface xDraftSight is unable to display or allow users to select a drop-down list of available content in the collaborative spaces when importing or creating new content.

IR #	Brief Description of issue(s) fixed
Documentation	
IR-1438024	Documentation Documentation inaccuracy: The BIM file format support in DraftSight is .rfa instead of .rva.
Mechanical	
IR-1432586	Mechanical Inconsistent automatic scaling rounds in Mechanical (AM_Frame), however, remain a precise decimal in Enterprise Plus (TB_Frame).

Dassault Systèmes is a catalyst for human progress. Since 1981, the company has pioneered virtual worlds to improve real life for consumers, patients and citizens.

With Dassault Systèmes' **3DEXPERIENCE** platform, 370 000 customers of all sizes, in all industries, can collaborate, imagine and create sustainable innovations that drive meaningful impact.
